## PROFILE

I am an undergraduate student studying towards a Bachelor of Science degree in Information Technology. I have a foundation in Computer Systems, Software and Database Development, and Network Management. I am passionate and eager to learn more about what the world of Information Technology has to offer.

## EDUCATION

|                                                      |             |
|------------------------------------------------------|-------------|
| <b>Bachelor of Science in Information Technology</b> | 2024 - 2027 |
| North-West University                                |             |
| <b>National Senior Certificate</b>                   | 2018 - 2022 |
| Wesvalia High School                                 |             |

## SKILLS

### Microsoft Office 365

- Microsoft Word Document
- Microsoft Excel
- Microsoft Powerpoint

### C# Programming

Development of Windows Forms and Web Forms in C# together with Database Management System Software. Little development of Mobile Applications.

### Information Security

Knowledge on the security side of information systems, including Confidentiality, Integrity, Availability, Secure Development, backups and restore etc.

### Systems Analysis & Design

Knowledge on how to analyse existing systems, applying different methodologies and developing and designing new systems.

### Database Development

Knowledge of Relational Database design, including ERD modeling, Normalization, and writing various SQL queries.

### Computer Networking

Knowledge of network fundamentals, protocols, algorithms and applying them to create networks given many scenarios.

## EXPERIENCE

### International Payment Processing

I have completed and processed various international payments by contacting banks and generating the necessary SARS documentation as required by the government.

### Inventory Management of Automotive Stock Items

I have purchased, packed and manage many stock items, by implementing inventory control systems and creating stock sheets for the given stock items.
